

# step into summer

**DART**, our new HR and Payroll product.

**TRAINING** - why an Investment in training can maximise efficiency in the workplace

**DISASTER RECOVERY** – who will restore your database?

**ADDING NEW MODULES** – more functionality from your system

**COGNOS IMPROMPTU®** –expertise at your finger tips

## adding new modules to your PS enterprise© system

Cirrus has expertise in adding new functionality to any PS enterprise system.

This will help enhance business performance in the workplace, for example generating letters or emails and even writing business plans and automating them. Why not speak to us

to see how we can help you get more from your existing system; whether it is for the Training, Recruitment or Absence modules.

If you would like more information or are thinking of getting more value from your system please call our sales team on 0845 6751500.

## we want more out of our system!

### Questions to ask yourself about your PS enterprise software?

- Are the same mistakes happening again and again?
- Is poor technical 'know how' being passed down from employee to employee?
- Are you getting the most out of your users?
- Is it costing your company a lot of money to put problems right?
- Is it taking a long time to put those problems right?
- Would you like to expand your knowledge base?

## why invest in training?

- Training can help reduce stress in the workplace
- Less mistakes are made when an employee has had training as well as being more confident using the software
- Time can be saved on specific tasks by training to increase the users' knowledge.
- Money can be saved through less time being spent on individual tasks.

## benefits from high quality Training

- We are very positive about the return on investment through training employees
- Costs and time can be reduced to free up time to spend on other tasks
- Improve existing skills and get more out of your system and users
- Advance your existing skills.
- Invest in training today.
- Call for a full list of courses
- Email [sales@cirrusit.com](mailto:sales@cirrusit.com) with the subject of Training.

**IMPORTANT**

**Do you carry out regular backups?**

**Don't risk losing your data should a disaster occur**

## **disaster strikes – payroll lost**

**Don't let this be you!**

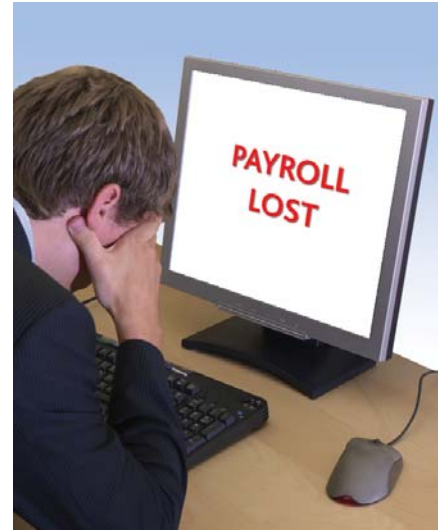

**Think ahead!**

**Plan Ahead!**

**Put contingencies in place!**

Should any disaster occur your organisation would be in a vulnerable position stopping the payroll team from carrying out any normal operations. Staff are key to your business; don't let them go unpaid for the commitment they give to your company.

Cirrus have designed a couple of different great value for money disaster

plans to re-instate any payroll system from backups should your business be left in that vulnerable position. For more information on our disaster recovery plans, please email our sales team with the subject DR to [sales@cirrusit.com](mailto:sales@cirrusit.com)

## **bespoke software and customisation of your PS enterprise® system – Don't leave supporting it to chance!**

Very often we are asked by clients about support of bespoke software and customisation they have on their system, very often there is no formal support arrangements in place. Here at Cirrus we are not precious about who has written or supported bespoke and customisation in the past because we have experts with many years experience who can provide these services seamlessly for you.

What's more is that we can provide all the support from our offices in Peterborough so there is no need to disturb your working day by coming out on site. We are flexible in our approach to providing these services for you and it may not cost as much as you think! So why not give our sales team a call on 0845 6751500 to discuss, alternatively drop them an email to [sales@cirrusit.com](mailto:sales@cirrusit.com)

### Cognos Impromptu®

Impromptu report writing is an area we are asked to help out on in frequently. We can help you with the writing of your own reports and also provide specific report writing capabilities to meet the needs of your finance or pensions team for example.

We also provide a range of training courses are Impromptu and catalog building that will help you meet the needs to your business. If you need assistance in this area please email [sales@cirrusit.com](mailto:sales@cirrusit.com) with the subject Impromptu for help from our experts.

### DART HR Software DATA, ACCESS, REAL, TIME!

This year will see the launch of our own HR and Payroll software DART©. Cirrus is currently in the stages of development of the product after conducting extensive market research into what your expectations of your HR and payroll needs are. The development team are currently working very hard on the product, testing it all the way. Version 1 of the product will be launched into the

market in the near future. It is planned that the software will be cost effective for SME's of all sizes and compliment existing products available to the SME market such as an interface into your payroll software. Later in the year the software will be available to download directly from our website. For more information on DART©, please email our sales team with the subject of DART to [dartsales@cirrusit.com](mailto:dartsales@cirrusit.com)

### who is Cirrus?

Cirrus is an Independent PS enterprise Consultancy firm based in Peterborough, specialising in Cognos Impromptu and Business Fusion. Cirrus has been in business for a number of years with a team of consultants who have worked on PS enterprise for many years, some who were involved in the development and testing of the product. Over the years, they have become a trusted provider of Consultancy and Training. Cirrus has built up strong relationships with existing customers as well as ever increasing their portfolio of new customers.
