Free Consultancy Day for Scottish Television

Congratulations to Jacqueline Gardner of Scottish Television for winning a free consultancy day in our draw for those customers who filled out our Contact Us form. They are using their day towards their Smart Pension Development work that we have undertaken for them.

Lower Costs MORE PROFIT!

In the present financial climate, making substantial cost savings is more important than ever. Cirrus can be of real help. We now offer a service that will lead to substantial reductions in your telephony and call charges at absolutely no cost to you.

After an onsite visit to assess your needs, our consultant will produce a report making clear recommendations for where real savings can be made. Through our extensive experience, we are able to advise not just the optimal solution, but the most appropriate supplier, so we can give you independent information and advise on all aspects of the utility services. The cost of the report is £85 + Expenses and VAT. Typically, the savings that can be made range from 10-30% so it's well worth the cost of a telephone call. This service is run on a brokerage arrangement, so there is nothing else to pay.

Contact Cirrus today and find out more on 0845 675 1500 or email sales@cirrusit.com with the title COST REDUCTION.

DART Community

Discover how, by becoming a member of the **DART** Community, you can transform your business processes. **DART** HR is a streamlined Software solution that sits at the heart of your system.

It is a cost effective, flexible and user-friendly product that can also act dynamically with other systems and applications, in effect creating a community for your business processes. The **DART** Community removes the tedious requirement for double data entry allowing information to be input once for it to be available across your system.

As **DART** HR caters for all the major aspects of modern HR management it can also be used as a very effective stand-alone HR System.

Some of you may be considering or be in the process of changing their HR and payroll systems and need to address the problem of data archiving. **DART** can offer a very cost effective solution which, with its ready access to information, makes it ideally suited as a repository for historical data.

Find out more about the **DART** Community by visiting our website on <http://www.cirrusit.co.uk/dart/community.htm> and Contact Cirrus and hear more on how **DART** can make a difference and really improve your organisation's efficiency and output by contacting us on 0845 675 1500 or email sales@cirrusit.com

Warranty on PS enterprise® work

Cirrus takes great pains to ensure that its software products and solutions are only of the highest quality. Whether it is Consultancy, Report Writing or any Bespoke Work on your system, Cirrus provides its clients with a three month warranty from the date of completion. However software bugs, upgrades or even user error can sometimes cause unforeseen problems to your system. These are sometimes not apparent until months after the work has been completed. We therefore, highly recommend that you take out an extended warranty to cover such an eventuality.

By arranging a rolling twelve month warranty with Cirrus you can ensure your peace of mind, knowing that full support is only a telephone call away. For more information contact us on 0845 675 1500 or email sales@cirrusit.com
